Violations:

- 6 **Details:** All construction activity regulated by this code shall be performed in a manner so as not to adversely impact the condition of adjacent property, unless such activity is permitted to affect said property pursuant to a consent granted by the applicable property owner, under terms or conditions agreeable to the applicable property owner. This includes, but is not limited to, the control of dust, noise, water or drainage runoffs, debris, and the storage of construction materials. New construction activity shall not adversely impact legal historic surface water drainage flows serving adjacent properties, and may require special drainage design complying with engineering standards to preserve the positive drainage patterns of the affected sites. Accordingly, developers, contractors and owners of all new residential development, including additions, pools, patios, driveways, decks or similar items, on existing properties resulting in a significant decrease of permeable land area on any parcel or has altered the drainage flow on the developed property shall, as a permit condition, provide a professionally prepared drainage plan clearly indicating compliance with this paragraph. Upon completion of the improvement, a certification from a licensed professional, as appropriate under Florida law, shall be submitted to the inspector in order to receive approval of the final inspection. More specifically, B-2023-004072-0000 Fence permit.

Violations:

2 **Details:** The provisions of this Code shall apply to the development of all land in unincorporated PBC, unless stated otherwise. No development shall be undertaken unless authorized by a Development Order.

The development or use of the property is inconsistent with the approved Development Order, or there is no approved Development Order and implementing Development Permit. The provisions of the ULDC shall apply to the development of all land in the unincorporated Palm Beach County unless stated otherwise. No development shall be undertaken unless authorized by a Development Order.

This property is inconsistent with the approved Development Order. More specifically, During the inspection, it was observed that there are three mailboxes labeled in alphabetical order (A, B, and C). Additionally, three building units and garbage containers are marked with corresponding alphabet letters (A, B, and C). The property owner has indicated that the property is being used as a multi-rental property.

The use of the property needs to be brought into compliance with the Unified Land Development Code. To discuss this property's approved development order or approvals, contact the Zoning Division at PZB-ZoningCompliance@pbc.gov or 561-233-5200.

Code: Unified Land Development Code - 1.A.2
Issued: 02/02/2026 **Status:** SIT

3 **Details:** Garbage Carts and Yard Waste Containers shall be placed at the Collection Point no earlier than 3:00 p.m. on the day preceding the day upon which collection is customarily made. Garbage Carts and Yard Waste Containers shall be removed from the Collection Point on the same day collection is scheduled to occur.

Except when placed for collection service in accordance with subsection 25-1(c)(1)a.-f., Garbage Carts and Yard Waste Containers shall be placed in a storage location within, adjacent to, or behind a structure, building, fence, landscaping, or other barrier which substantially screens the view of the Garbage Carts and Yard Waste Containers from the street or public right-of-way.

Store garbage containers so that they are screened from view from streets or public right-of-way.

2 Details: All construction activity regulated by this code shall be performed in a manner so as not to adversely impact the condition of adjacent property, unless such activity is permitted to affect said property pursuant to a consent granted by the applicable property owner, under terms or conditions agreeable to the applicable property owner. This includes, but is not limited to, the control of dust, noise, water or drainage runoffs, debris, and the storage of construction materials. New construction activity shall not adversely impact legal historic surface water drainage flows serving adjacent properties, and may require special drainage design complying with engineering standards to preserve the positive drainage patterns of the affected sites. Accordingly, developers, contractors and owners of all new residential development, including additions, pools, patios, driveways, decks or similar items, on existing properties resulting in a significant decrease of permeable land area on any parcel or has altered the drainage flow on the developed property shall, as a permit condition, provide a professionally prepared drainage plan clearly indicating compliance with this paragraph. Upon completion of the improvement, a certification from a licensed professional, as appropriate under Florida law, shall be submitted to the inspector in order to receive approval of the final inspection. More specifically, please obtain a permit for site development for the fill dirt.

Violations:

1 Details: Vegetation Removal and Replacement
For the purpose of this Section, the term “vegetation” shall include tree(s), palm(s), and pine(s). Vegetation that is required to be planted on a property per Code requirements or through a Condition(s) of Approval shall not be removed without first applying for and being issued a Vegetation Removal and Replacement Permit. Removal of vegetation without a valid permit shall be considered a violation of the Code or the DO, unless otherwise exempted by the F.S. [Ord. 2019-005] [Ord. 2020-001]

CODE COMPLIANCE
SPECIAL MAGISTRATE HEARING AGENDA
JUNE 03, 2026 9:00 AM

2 Details: Development other than Buildings and Structures: The Floodplain Administrator shall inspect all Development to determine compliance with the requirements of this Article and the conditions of issued Floodplain Development Permits or Approvals.

On all new, permitted construction, regardless of flood zone designation, grading shall keep all rainfall and runoff flow on the Building site until discharged into the roadway drainage system or to public drainage ways adjacent to the property lines. Berms shall be constructed along lot lines, if necessary, to prevent stormwater flow directly onto adjacent properties. Erosion sedimentation off the Building site shall be controlled until vegetative cover is established. The Floodplain Administrator may require grading plans showing pre-construction and proposed finish earth grades.

Please obtain a site development permit for the fill dirt and for the clearing of the lot.

Code: Unified Land Development Code - 18.A.6.B & 18.D.5.A.1
